

2009 MWSA Tournament Status

Hello Everyone,

I wanted to send this note out to everyone because there has been some question as to the status of the MWSA tournaments scheduled for this summer due to the excessively low water level at Island Lake. This notice is to clarify how we will manage this issue and allow everyone to make their plans for the upcoming events.

First of all,

All tournaments will be held as scheduled!

And second,

The locations are subject to change!

Your board members have already assembled back up plans for each tournament in the event we are unable to safely hold a tournament at Island Lake. If sufficient rain occurs and the water level returns to a safe level, the tournaments will be held at Island Lake. A decision for each tournament will be made two weeks prior to their start dates concerning location only and should give us plenty of time to notify everyone if there is a location change.

A notice will be sent out by email to all MWSA members regarding the location 2 weeks prior to each tournament as well as posted to the MWSA website at www.mnwaterski.com

Here are the proposed location changes;

The GMO would be held in New Germany at Trophy Lakes IV.
The State Championships would be held at Trophy Lake III in Center City.

Unfortunately, one of the draw backs of moving the GMO to New Germany is that the jump event **may** need to be cancelled due to no jump.

Sorry for any inconvenience and thank in advance for your cooperation,
Chris Kosek
